

Midwest Development League Series

The Detroit Mountain D-Team is an program that offers a fun introduction to the world of ski racing competition. The "D" stands for "Development", and puts an emphasis on rounding out the student's skill sets as all mountain skiers, while helping apply these skills to their speed and control on the race course and competition stage.

The D-Team is for skiers age 6-18.

The D-Team program is designed as an introduction to the more technical aspects of skiing, and is not a program for first-timers. Skiers must be able to make controlled S-Turns down the mountain and be able to ride the chairlift on their own.

This program is for building teamwork, friendship, self confidence and skiing FUN!
